Lucky Penny Matching™

OFFICIAL GAME RULES

PLAYERS

2 Players

WHAT YOU NEED TO PLAY

- One **Lucky Penny Matching™ Game Sheet** (printable from *luckypennyjar.com*)
- **30 pennies**

GAME SETUP

- **Starting Pennies:** Divide the 30 pennies evenly so each player starts with **15 pennies**.
- **Choosing Heads or Tails:** The youngest player chooses either **Heads** or **Tails**. The other player automatically takes the remaining side.

HOW TO PLAY

1. Both players take one penny from their stack and flip it at the same time.
2. **If both pennies land on Heads:** The **Heads** player wins both pennies.
3. **If both pennies land on Tails:** The **Tails** player wins both pennies.
4. **If one penny is Heads and the other is Tails (No Match):**
    - Place both pennies inside the large **No Match** circle on the game sheet.
    - Players flip again using new pennies from their stacks.

CONTINUING PLAY

- Every time there is a **No Match**, both flipped pennies are added to the pile inside the large circle on the game sheet.
- When a match finally occurs (either a Heads match or a Tails match), the player who owns that side wins **all pennies currently inside the circle**, plus the two pennies from the matching flip.

WINNING THE GAME

The winner is the first player to collect all **30 pennies**.
